About Arteris IP

Arteris IP (NASDAQ: AIP) provides system IP consisting of network-on-chip (NoC) interconnect IP and IP deployment technology to accelerate system-on-chip (SoC) semiconductor development and integration for a wide range of applications from AI to automobiles, mobile phones, IoT, cameras, SSD controllers and servers for customers such as Bosch, Baidu, Mobileye, Samsung, Toshiba and NXP. Arteris IP products include the Ncore® cache coherent interconnect IP and FlexNoC® non-coherent interconnect IP, the CodaCache® standalone last level cache, and optional Resilience Package (ISO 26262 functional safety), FlexNoC AI Package, and PIANO® automated timing closure capabilities. Our IP deployment products provide intelligent automation that accelerates the development and increases the quality of SoC hardware designs and their associated software and firmware, verification and simulation platforms, and specifications and customer documentation. Customer results obtained by using Arteris IP products include lower power, higher performance, more efficient design reuse and faster SoC development, leading to lower development and production costs.
